Use the arrows to organize the page structure

Click "View Wireframes" anytime to see the result.

Edit the content of the page

Drag + Drop pages to change the structure

Right click to add a new page, modify or delete an existing page

The screenshot shows an 'Enterprise Portal' interface. On the left, there is a 'Template Pages' sidebar with categories like Basics, Advanced, Applications, Business Applications, and Advanced Container. The main area displays a tree view of the portal structure under 'Enterprise Portal'. The tree includes sections for Corporate (Tools & Services, Ideas & Suggestions), People (Profiles, Org. Chart, Birthdays & Anniversaries), and Departments (Human Resources, Finance, IT, Legal, Marketing old, Marketing, Quality Management, Sales old, Sales). A context menu is open over the 'Sales' item, showing options: View Wireframe, Edit Layout, Move to parent level, Move up, Move down, Move to child level, Add Page before, Add Page after, Add Subpage, Duplicate, Delete, Rename, and Properties. A toolbar at the top of the main area includes buttons for Edit Content, View Wireframe, Duplicate Page, Delete Page, Rename Page, Page Properties, Expand All, and Collapse All. A red 'feedback' button is located on the right side of the interface.
